At Rick's we are recognized for our personal attention. Since our inception, we have helped develop many wrestlers with very little experience become quality competitors. It's simple we care about the individual and personal goals. We train to dominate at Rick's and we accept being the stepping stone to success for everyone who steps in our room. Our mission is to instill all the qualities necessary to becoming a true all American on and off the mats that includes discipline, commitment and desire to becoming a champion!
